About the event

Innovating Better, Innovating Local: Successfully Delivering Digital Transformation in your Local Authority

Collectively, local government spends around £2 billion per annum on ICT. Robust and innovative ICT can drive transformation at every level, from the way public services interact with customers to empowering a truly digital workforce.

Join colleagues and peers over 3 days at the **Online Local Government ICT Summit** and discover how the public sector is using digital transformation to improve the customer experience, using digital to drive collaboration and successfully utilising ICT to save money.

Free-to-attend for the public sector.

Event at a Glance:

Day 1 - Transformation - 29th September

Day 2 - Resilience - 30th September

Day 3 - Innovation - 1st October

What to expect from an online event:
